EXPERIENCE

Penguin Apps Software Developer Intern	Jan 2025 – Present <i>Remote</i>
--	-------------------------------------

- Integrated new features and resolved bugs in a school management system, enhancing overall usability.
- Contributed to the development of key features for a mobile app, improving functionality and user experience.
- Built and integrated RESTful APIs with Strapi Headless CMS for a high-performance, content-driven platform.

DermaQ Full-Stack Developer Intern	Mar 2024 – Apr 2024 <i>Remote</i>
--	--------------------------------------

- Redesigned a responsive dashboard, improving user experience, enhancing statistics, notifications, and chat UI.
- Managed API integrations for user profiles and dashboard functionalities, ensuring smooth data flow.
- Developed key website components, contributing to a polished and user-friendly interface.

PROJECTS

CoGLider: Developed a React Native app with Typescript, helping developers find the perfect project partner based on skills and proximity. Built a Tinder-like matching interface, real-time chat with Firebase Firestore, and push notifications using Expo for seamless collaboration. ([Try it here](#))

ProJet: Created a platform using the MERN stack, Material UI, and Tailwind CSS for students to showcase all of their projects at one place and explore projects. Enabled secure authentication and project management. Promotes collaboration and knowledge sharing among students. ([Try it here](#))

FileGlide: Built a user-friendly web platform for quick and secure file sharing. It streamlines the process without requiring login or sign up, allowing instant sharing across public and private devices by entering a shared random bucket code. Widely used by many of my college students. ([Try it here](#))

EDUCATION

Bachelor of Computer Science Maharashtra Institute of Technology, Aurangabad	Expected 2025
--	---------------

ACTIVITIES

- Web Dev team lead for [Google Developer Student Club - MITA](#). Developed several websites for the club. Organized and hosted various technical events, promoting learning and innovation within the student community.
